drssponia@yahoo.co.in

It was a wonderful lecture which has mesmerized all regarding nature and scope of science education. Such lectures are needed for our school teachers for developing ownership of popularizing science among students and society. Salute to organizing team.

The lecture on The nature of Science was very interesting and informative. The concepts of science were explained in a very simple manner with examples, taking from daily life. The Q & A session was also very helpful to remove the doubts of participants. Thanks to organizers / Tech. team members to organize such a wonderful webinar. Regards

SIR THE WEBINAR CONDUCTED SO FAR WERE OF EXCELLENT NATURE. THE TEAM OF CYBER TECHNICAL PERSONS AND FACULTY HANDLED WELL. KUDOS TO THEM. THE LECTURE OF DR. BHATIA ALSO WAS SATISFACTORY. IT WAS A GENERAL ONE FOCUSING MAINLY ON SCIENTIFIC RESEARCH ON LOGICAL AND RATIONAL THOUGHTS INSTEAD OF SUPERSTITIOUS ONE. GOOD FOR THE SCIENCE TEACHERS TO CARRY FORWARD TO STUDENTS. HOPE TEACHERS GOT BENIFITTED.
