tevatia.rpsingh@gmail.com

The lecture delivered by Ms. Sanchita Jindal, Former Advisor (Scientist G), Ministry of Environment, Forest and Climate change, Govt. of India, was very elaborate and informative. She covered many new aspects of Plastic Wastes Management. The information will be helpful to all the participants especially for practicing teachers. The webinar is completed successfully. Thanks to webinar organizing team. Regards

ajaykumar_grl@rediffmail.com

The content was very interesting and related to our day to day life. It forces anyone to think before using a plastic item and segregation is the key mantra for all the hawk created due to plastic. Plastic is not a problem but its way of destroying like an illiterate is the problem. Thanks for such a wonderful session to enrich us.

VIBHA VIRMANI

dietppura@gmail.com

Comprehensive session. Appreciate the efforts of expert and organizing team. Though the session was delivered very effectively and confidently. The Pace of session could have been a slow for better comprehension. Bilingual - Hindi and English will reach to most. Also more of practical solution that can be adopted in our house, locality and at school level can be elaborated upon. Overall enriched.

DR. K K NATHAN

WELL THE LECTURE PRESENTATION BY MS. SANCHITA JINDAL WAS GOOD, INFORMATIVE, INTERESTING AND COMPREHENSIVE. SHE HAS EMPHASISED SOME PRACTICAL PROBLEMS TO MITIGATE PLASTIC WASTE MANAGEMENT IN INDIA.

HOWEVER, NUMBER OF SLIDES MIGHT HAVE BEEN REDUCED AND MORE POPULAR SLIDES FROM THE TEACHERS AND STUDENTS PERSPECTIVE WITH FOCUS ON MITIGATION AND FUTURE ACTION OF PLASTIC WASTE MANAGEMENT TO WEALTH.

The lecture on plastic waste management challenges and solutions was an eye opener. Whereas almost everyone knows about the problem of plastic waste accumulation in general, the concrete information is lacking. Sanchita Jindal ma'am filled that lacuna of knowledge with relevant facts and ideas supported by necessary statistics. It was certainly a very enriching and interesting lecture.
